

Season 3 Episode 2

Tales from the Ultraverse

Mason and Keith are standing on the road in the middle of the side street. Mason takes out a remote and he presses a button on it and a robot suit appears beneath Mason and Mason jumps in the cockpit. Mason's robot is silver and has a large M on it. Keith takes out a remote and he presses a button on it and a robot suit comes up from beneath him. Keith's is black and has a giant K on it. Keith darts to Mason and punches Mason in the chest. Mason grabs onto Keith's head and smashes him into the ground back and forth and he throws Keith across the street. Keith is about to crash into someone's house and he uses rockets in his hands and feet and he flies away from the house just before he makes any contact with it. Keith takes out two lasers from his hands and he fires them at Mason. Mason raises his right arm and there is a shield on it that blocks the laser blasts. Keith uses both of his hands and he gets a tight grip on Mason's arms. Keith said, "Everyone knows I am the better one." Mason said, "That's what you think." Mason uses rockets in his feet to jump into the sky and an airplane flies between Keith and Mason's arms and it separates them. Mason bolts down to the ground and lands on the ground without causing any damage. Keith falls rapidly to the ground and his control stick in his cockpit malfunctions. The robot spins out of control and Keith smashes onto the road and he flies out of his robot and he rolls down the street. Keith looks behind him and he sees Mason is still intact. Keith runs away while only looking at Mason and not paying attention to what is in front of him. Keith crashes into someone. Keith falls to the ground. Keith said, "Hey, what gives? Get out of my..." Keith looks at who it is, and he sees it is himself. He sees himself dressed in robes like a monk and armed with a sword. Keith said, "Who the heck are you?" The other Keith said, "I am you, from a different timeline." Keith said, "Different timeline? That sounds like baloney." The other Keith said, "No, it's real alright. I'm from it. I need your help." Keith said, "Go ask Jason and Mason for help. I never help anyone with anything." The other Keith said, "You have. In another timeline." Keith said, "What is with this and timelines?"

Jason and Mason enter the scene and they see the two Keith's. Jason looks at them and he said, "Am I seeing double?" Robed Keith said, "You are in a way. Jason, Mason, it has been a long time." Mason said, "Why are there two Keiths?" Jason said, "Yeah, what's with that?" The robed Keith waves his hands around and a portal appears. Robed Keith said, "Come with me." Jason, Mason, and Keith go in the portal with the robed Keith. They appear in a dark purple room with special displays that hold large marbles. Jason said, "This place looks familiar." Mason said, "I think I know what this is? We still need an explanation though." Robed Keith said, "Months ago, our world started to crumble. Law officials were turning evil. They destroyed my home and they destroyed the lives of many other people by placing unjust laws into place." Jason said, "This is starting to sound familiar." Robed Keith said, "They defeated Captain Fusion and I was forced to team up with Jason and Mason to get to the bottom of this. The source of this was from an existence higher than the universe, the ultraverse." Jason said,

"I remember this now." Robed Keith shows them a newspaper article showing the face of Lloyd Barnesworth. Keith said, "We went against Lloyd Barnesworth because he was the mastermind behind this plot and he sent his robot goons after us and Jason and Mason escaped back into their corrected universe while I was left behind in the ultraverse." Jason and Mason remember what Keith is talking about. Jason said, "Yeah, whatever happened to that Keith?" Robed Keith said, "He is me. I became an emissary between the universes you see here. I travel to them and settle unjust conflicts in them." Mason said, "Why did you come to our universe?" Robed Keith said, "There is a great injustice in this universe..." Robed Keith points to a red marble universe. Robed Keith said, "A man from the gold marble universe traveled into the red universe and is causing a catastrophic amount of damage to that universe by doing dangerous transuniversal experiments. I cannot do everything. I need the intellect of Mason and Keith to solve this. I know the two of you teamed up once before and managed to defeat the evil Barnesworth. I have faith in you. I am sending you to the red universe now. Good luck." Robed Keith spins his arms around and Jason, Mason, and Keith end up in a vortex and they are sucked into the red universe.

Jason, Mason, and Keith appear in a gray-scale poorly drawn in pencil world. Jason, Mason, and Keith look at themselves and they see they are poorly drawn in pencil. Jason said, "I'm a cartoon made by a fourth grader." Mason said, "We need to find the source of the problem. We have no time to lose." Keith said, "This is very degrading. It is degrading enough to see me hang out with you two. It is even more degrading to see me poorly drawn like this." They walk down the street. They see that everything is 2D and lacks perspective. They see a stick figure walk up to them with a mug and he said, "You spare any graphite?" Mason said, "We don't have any." The homeless man said, "That's because Clyde stole all of it." Mason said, "That's nice, we need to find the source of the problem."

They keep walking down the street. Keith said, "I'm going insane here. I never knew a poorly drawn pencil world could exist. I wonder if people are born here by drawing." Mason said, "That's a theory we could test if we had any pencils." Jason said, "Maybe we need to get a better view of the place. Can we stand on that paper wall I mean building?" Jason, Mason, and Keith go to the top of an incredibly 2D loose rough pencil drawn building. Jason stands at the bottom and Keith goes on his shoulders and Mason is at the very top looking around with binoculars. Mason sees buildings, birds, trains, cars, planes. Mason said, "I am looking very close. Everything in this universe seems to be gray. I see color. I see a giant mansion out in the distance that looks very well, professionally drawn in color." Keith said, "That sounds very out of place." Mason said, "That may be the source of the trouble. We should check it out." Keith said, "We can't just check it out like this. We clearly have changed. We don't know what our weaknesses are." Mason said, "I will take that risk. We've been through too much to be destroyed at this point." Jason said, "I'm with him. If we were to be destroyed, we would have been destroyed a long time ago."

Jason, Mason, and Keith go to the front of the mansion. They see it is locked. It has a giant well drawn gold lock on it. Keith said, "Great. How are we going to get in?" They see a poorly drawn boy with a short-sleeved shirt and shorts with a baseball hat walk out of a door on

the side of the house. Jason waves to the boy and he runs to the boy. Jason said, "Excuse me sir!" The boy stops and he said, "What could I do you for?" Jason said, "We have business with the people inside that mansion that looks different from anything else in this universe. Can you help us get in?" The boy said, "Sure. You can just walk through the hidden door over here." The boy shows them the door and they enter the house and the boy joins the party. The boy said, "I am servant, Jimmy." Jason said, "Hello, servant Jimmy." Mason said, "Why are you a servant?" Jimmy said, "That's the title I was given. I was created by Clyde, the man that lives in this house." Mason said, "Clyde lives here?" Jimmy said, "Yupers." Jason said, "Isn't that the guy that stole all the graphite?" Mason said, "Yes, it is. Clyde may be the man we are looking for." Keith said, "Clyde, that sounds like the name that would be given to some lame wannabe me. I will show that bugger what it really means to be the great, Keith."

They walk into a giant foyer filled with diamonds and gold. Keith's mouth drops open. Keith said, "There's more diamonds and gold in here than there is in our universe." Mason said, "We know something must be wrong here." Jimmy said, "Master, there's people here that want to see you!" Clyde walks down the long red-carpet staircase. Clyde said, "I didn't know I would be having visitors today." Clyde is well drawn in color and he has blonde hair and wears a blue and white sweater shirt with a white dress shirt with a red tie. Clyde looks at Jason, Mason, and Keith and he said, "What brings you to my place, peasants?" Mason said, "We think you are from another universe and come to this one only to conduct dangerous experiments on it." Clyde said, "What makes you so sure of that?" Jason said, "Everything in this universe is poorly drawn and you are the only one that's not." Clyde said, "It is unwise to badmouth your overseer." Keith said, "Your dang habits are making people turn against you. You would lose if they were just as strong as you." Clyde said, "Shut up!" Clyde reaches in his sweater and he pulls out a pencil and he draws some thugs in the air and they appear next to him. Clyde said, "Beat them up." The thugs are poorly drawn and they are large with stick arms and legs and baseball heads. They strike at Jason, Mason, and Keith and they roll away and dodge their attacks. Mason said, "Remember when Keith said, they may have weaknesses? We are about to find out." Mason sees a giant gold fountain in the space next to the stairs. Mason runs over there and the thugs follow him. The thugs strike the ground in front of Mason and Mason jumps over them and he grabs them by their back lines and he throws them in the fountain water. They dissolve. Clyde said, "You guys took out my men. I will show you..." Clyde takes out his pencil. Keith jumps on Clyde and they fight over the pencil. Keith knocks the pencil out of Clyde's hand and he grabs it and he draws a sword. Keith holds the sword at Clyde and he clutches the pencil in the other hand.

Keith said, "I've got the pencil now." Clyde said, "I've got a million more of those." Clyde takes out another pencil and he draws more bad guys in the air. Keith draws a fire-hose and he drenches the bad guys in water and they dissolve. Clyde said, "You..." Jason and Mason run up the stairs. Clyde tries to run after them but he trips and he looks down and he sees his feet are handcuffed. Clyde said, "What the?" Keith runs up the stairs with Jason and Mason. They walk into a random room and they see a tiger in it. They quickly shut the door and they open up another door and they see weird machines and a portal being generated by the machines. Mason said, "This must be the portal that the robed Keith was talking about. These must be the machines that Clyde built to power them. Clyde breaks the handcuffs on his feet and he runs

up the stairs. Jason and Mason run to the controls. Mason looks at them carefully. Mason said, "We have to be careful with which switch we hit." Jason said, "Screw that." Jason grabs a pencil on a desk and he draws a glass of water and he pours it all over the controls and they dissolve. The machines begin to spark and malfunction. The portal begins to phase out. Jason, Mason and Keith jump in the portal. Clyde sees them jump in and Clyde jumps in the portal the second before it phases out.

Jason, Mason, Keith, and Clyde fall into the room with all the universes. Robed Keith walks out and he said, "I knew you could do it. You brought Clyde back. He can no longer cause trouble in that other universe. He will be returned to his universe." Clyde said, "Not if I can help it." Clyde runs for the green universe (the universe that Jason, Mason, and Keith are from) and he presses buttons on the control panel in front of the marble and he jumps into the marble. Robed Keith said, "I never knew Clyde to be that spontaneous." Keith said, "You really call yourself superior?" Robed Keith said, "Remember, I know everything you know and more." Keith said, "If more is any good." Mason said, "We need to do something. Clyde is in our universe now. He could be doing catastrophic things in our universe. We must return to our universe and stop him." Robed Keith said, "Return you must. Return you, I will." Robed Keith flails his arms around and Jason, Mason, and Keith return to their universe where they are on the street in front of Keith's broken robot.

They are on the street and they see Clyde has a pencil and he draws things that appear to be life-like (in Jason and Mason's universe). Clyde draws an awesome powerful robot suit and he goes in the cockpit of it. He grabs onto Jason and Mason by the feet. He flies into the air. Keith tries to run for his robot suit and he sees it is destroyed from earlier. Keith takes out his pencil and he draws it being fixed and then it becomes fixed. Keith gets in it and he flies to Clyde's robot. He punches Clyde's robot and Clyde spins around and he drops Jason and Mason. Jason and Mason fall in the sky and Mason goes to his control watch and he presses a button on it and his robot suit appears and Jason and Mason fall in it. Mason takes control of it. Mason and Keith look at each other. They slowly shake their heads. They both punch Clyde. Clyde grabs both of the robots by their feet. Clyde rapidly shakes them, and Jason, Mason, and Keith fall out of their robots and fall through the sky at a great height. Jason said, "What are we going to do now?" Keith takes out a pencil and he draws a UFO and Jason, Mason, and Keith appear in the UFO. Keith takes control of it and he flies it after Clyde.

Keith activates the tractor beam on the UFO and he targets Clyde. Clyde slowly flies out of his cockpit and towards the UFO. Clyde fires a missile out of one of his hands and Keith deactivates the tractor beam and uses a laser blast to destroy the missile. Clyde zips to the UFO and he punches it and he sends it spinning around. Keith maintains control of it and he flies it after Clyde. He zips around Clyde and he flies to Clyde's head and Clyde fires a plasma shot at it and the plasma shot homes in on the UFO and it is about to hit the UFO and Keith flies it out of the way and the plasma shot hits Clyde in the face. The cockpit on Clyde's robot explodes and Clyde falls from the sky. Clyde tries to draw something but a bird flies by and uses his beak to grab the

pencil out of Clyde's hand. Clyde makes a fist at the bird and he said, "Curse you!" Keith uses the tractor beam on Clyde. Clyde is sucked into a prison cell on the UFO and Keith lands the UFO on the ground.

Jason, Mason, and Keith stand around Clyde's prison cell. Jason said, "I say we should pound him for what he did." Mason said, "I say we should throw him into the court system." Keith said, "I say we should vaporize him." Robed Keith appears and he said, "Or maybe we should leave him here to suffer." They all give an odd look at Robed Keith. Robed Keith waves his hands around and the pencil from Keith's pocket flies out and it vaporizes in the air. Robed Keith said, "Clyde cannot do much in this universe. He does not have access to his machines and he had a pencil but he lost it and Keith had a pencil which just got destroyed. I think Clyde should be left in this universe. There are no portals to other universes in this one right now. I am proud of you. I saw the two of you fighting earlier, Mason and Keith. But look at you now, you have changed. You learned there was a greater threat to the universe and you teamed up. Just like what I did months ago." Keith said, "Oh really. I still think I deserve better recognition than Mason. I just forgot about that because the universe was in danger and I must save the universe to become more famous than Mason." Robed Keith said, "I still hated Mason for weeks after I was abandoned in the ultraverse. I learned the truth. In time, you will become like me." Keith said, "I doubt that."

Clyde walks down the street of downtown San Francisco. He sees the San Francisco library and he goes to it and he goes to a computer there and accesses the internet. He looks up, Jason, Mason, and Keith. He reads about Keith and he reads that he is the son of Dr. Gruzzard. Clyde's eyes go big and Clyde said, "Keith is the son of Dr. Gruzzard? So was I."
